Tom 238–Tom 243, 1978

Vol. 19, Nos. 1–6 January–December 1978 Pages 1–1595

ANNUAL INDEX OF AUTHORS

Abdrahmanov, A. *On the Dirichlet problem for a degenerate elliptic system of two second-order equations* ... 239

Adjan, S. I. *On the simplicity of periodic products of groups* ... 910

Agranovskiĭ, M. L. *The Fourier transform on $SL_2(\mathbf{R})$ and theorems of Morera type* .. 1522

Al'ber, Ja. I. and Rjazanceva, I. P. *The residual principle in nonlinear problems with discontinuous monotone mappings is a regularizing algorithm* ... 437

Alešin, B. V. and Kuznecov, P. I. *On a case in the theory of ε-invariance of differential equations* ... 131

Aliev, A. B. *Solvability "in the large" of the Cauchy problem for quasi-linear equations of hyperbolic type* ... 563

Anaškin, O. V. See Hapaev, M. M.

Andrunakievič, V. A. and Rjabuhin, Ju. M. *Complementary and dual torsions* ... 73

Andrunakievič, V. A., Kračilov, K. K. and Rjabuhin, Ju. M. *Lattice-complemented torsions in algebras over a Noetherian integral domain* ... 1216

Antoncev, S. N. and Meĭrmanov, A. M. *Questions of the correctness of a model of simultaneous motion of surface and ground water* ... 1113

Antoncev, S. N. and Monahov, V. N. *Three-dimensional problems of time-dependent two-phase filtration in nonhomogeneous anisotropic porous media* ... 1354

Antonevič, A. B. *On operators generated by linear extensions of diffeomorphisms* ... 1403

Apanasov, B. N. *On Mostow's rigidity theorem* ... 1408

Apanasov, B. N. and Tetenov, A. V. *On the existence of nontrivial quasi-conformal deformations of Kleinian groups in space* ... 242

Arhangel'skiĭ, A. V. *On topologies admitting a weak connection with orders* ... 77

On α-expanded spaces ... 336

On spaces of continuous functions in the topology of pointwise convergence ... 605

Arhipov, G. I. and Karacuba, A. A. *On I. M. Vinogradov's integral* ... 389

Arsen'ev, A. A. *On the existence of generalized and stationary statistical solutions of Vlasov's system of equations in a bounded domain* ... 386

Artem'ev, S. S. and Demidov, G. V. *An algorithm of variable order and step for the numerical solution of stiff systems of ordinary differential equations* ... 53

Arzumanjan [Arzumanian], V. A. and Veršik, A. M. *Factor representations of the crossed product of a commutative C*-algebra and a semigroup of its endomorphisms* ... 48

Aseev, V. V. *On homeomorphisms of k-dimensional spheres that preserve n-dimensional space moduli* ... 1526

Aslanjan, L. A. Karahanjan, V. M. and Torosjan, B. E. *On the compactness of subsets of vertices of the n-dimensional unit cube* ... 781

Babenko, K. I. *On a problem of Gauss* ... 136

On the phenomenon of saturation in numerical analysis ... 859

On the asymptotics of the Dirichlet kernel of spherical means of multiple Fourier series ... 1457

Babenko, K. I. and Jur′ev, S. P. *On the discretization of a problem of Gauss* 731
Bahvalov, N. S. and Zlotnik, A. A. *Coefficient stability of differential equations and averaging equations with random coefficients* 1171
Bak Hyng Khang. *Completeness of the linear closures of some classes of recognition algorithms* 661
Bandlov, I. *The hyperabsolute of a mapping* 665
Barsegjan, G. A. *New results in the theory of meromorphic functions* 82
Baškirov, A. I. *On maximal almost disjoint systems and Franklin bicompacta* 864
Bassalygo, L. A. and Pinsker, M. S. *Error correction in channels with defects* 1530
Bautin, A. N. *On the small parameter method* 567
Beklemiševa, L. A. *Invariants of polynomial systems of differential equations with respect to generalized power transformations* 1535
Belaga, È. G. *Analysis of protoschemes of algorithms* 1117
Bel′nov, V. K. *Dimension of topologically homogeneous spaces and free homogeneous spaces* 86
Belonosov, V. S. *Estimates for solutions of parabolic systems in Hölder classes with a weight* 820
Belov, Ju. Ja. *On a system of nonlinear operator equations in a Banach space* 1359
Belyĭ, V. I. and Tamrazov, P. M. *Moduli of smoothness and polynomial approximations of functions in quasi-conformal domains* 869
Berdyšev, V. I. *The continuity of multimappings connected with minimization of convex functionals* 1364
Berezin, F. A. *A connection between the co- and contravariant symbols of operators on classical complex symmteric spaces* 786
Berman, V. S. *On the asymptotic solution of a nonstationary problem on the propagation of a chemical reaction front* 1076
Bicadze, A. V. *On a boundary value problem for the Helmholtz equation* 494
Blagoveščenskiĭ, Ju. N. *Quasi-linear functionals and a test for checking distribution types* 703
Blošanskiĭ, I. L. *Generalized localization almost everywhere and convergence of double Fourier series* 1019
Bobylev, N. A. (see also Krasnosel′skiĭ, M. A.)
Bobylev, N. A. and Krasnosel′skiĭ, M. A. *Generalized Ljapunov systems* 441
Bočkarev, S. V. *On a majorant of the partial sums for a rearranged Walsh system* 341
Bogomolov, F. A. *Hamiltonian Kähler manifolds* 1462
Boĭko, L. F. See Martynenko, M. D.
Boĭmatov, K. H. *Spectral asymptotics of differential equations with operator coefficients in a nonsmooth domain* 1176
Asymptotics of the spectrum of an elliptic differential operator in the degenerate case 1540
Boĭmatov, K. H. and Kostjučenko, A. G. *The asymptotic behavior of Riesz means of the spectral function of an elliptic operator* 873
Brin, M. I. *On the fundamental group of a manifold admitting a* U*-diffeomorphism* .. 497
Buhgeĭm, A. L. *Volterra operator equations in Banach space scales* 1084
Buhvalov, A. V. *Geometric properties of Banach spaces of measurable vector-valued functions* 501

Bulinskiĭ, A. V. *On the functional law of the iterated logarithm* 141
Butuzov, V. F. *The asymptotics of solutions of some model problems in chemical kinetics, taking diffusion into account* 1079
Čan Dyk Van [Chan Dyk Van]. *Sobolev spaces of infinite order with weight in a layer and the solvability of boundary value problems for degenerate nonlinear elliptic equations* 699
Čencov, A. G. *An iterative program construction for a differential game with fixed termination time* 559
Čeredničenko, V. G. *On the question of defining the density of a body from a given potential* 721
Černomaz, V. N. and Ševčenko, V. I. *On the problem of linear conjunction for a holomorphic vector in four-dimensional space* 1163
Čikriĭ, A. A. *Sufficient conditions for evasion in nonlinear differential games* 905
Čistov, A. L. *On the number of generators of a semigroup of classes of algebraic tori relative to stable equivalence* 1267
Citkin, A. I. *On structurally complete superintuitionistic logics* 816
Citrickiĭ, O. E. See Ljaško, I. I.
Čobanjan, S. A. See Gorgadze, Z. G.
Čuešev, V. V. *On some submanifolds of spaces of Koebe groups* 1395
Dašjan, Ju. R. and Suhov, Ju. M. *On the question of the Gibbs description of random processes with discrete time* 1122
Demidov, G. V. See Artem'ev, S. S.
Dem'janov, V. F. and Šomesova, V. K. *Conditional subdifferentials of convex functions* 1181
Didenko, V. P. (see also Ljaško, I. I.)
A variational method of solving boundary value problems whose operator is not symmetric 736
Djukova, E. V. *The construction of irredundant tests for k-valued tables* 202
Do Long Van, *On the word and conjugacy problems for some classes of finitely presented groups* 938
Dolžanskiĭ, F. V. See Višik, S. M.
Dosiev, A. A. and Mamedov, Ja. D. *On the solution by the grid method of a mixed boundary-value problem for nonlinear elliptic equations* 1186
Dranišnikov, A. N. *Simultaneous annihilation of families of closed sets, κ-metrizable and stratifiable spaces* 1466
Dubinskiĭ, Ju. A. *Some imbedding theorems for Sobolev spaces of infinite order* 1271
Džrbašjan, M. M. *On an infinite product* 621
Efimov, A. V. and Zolotareva, S. Ju. *The multiplicative Fourier integral and some of its applications* 1127
Efremovič, V. A. See Vaĭnšteĭn, A. G.
Emeličev, V. A., Kravcov, M. K. and Kračkovskiĭ, A. P. *On some classes of transportation polytopes* 889
Eršov, Ju. L. *Valuations of division rings, and the group SK_1* 395
Evstigneev, I. V. *Measurable choice and the continuum axiom* 1
Evtušenko, Ju. G. See Golikov, A. I.
Farber, M. Š. *Classification of some knots of codimension two* 555

Fedorčuk, V. V. *On ordered sets* 596
Fedotov, A. M. *An estimate of the accuracy of approximate solutions of operator equations of the first kind with random errors in the initial data* 652
Fedotova, Z. I. See Šokin, Ju. I.
Feĭzullaev, R. B. See Mustafaev, L. G.
Fomin, S. V. *Finite partially ordered sets and Young tableaux* 1510
Fortus, M. I. *An explicit formula for the mean square error of a linear extraction of a stationary random process with rational spectral density* 808
Freĭvald, R. V. *Recognition of languages with high probability on different classes of automata* 295
Fridman, B. L. *On a class of analytic polyhedra* 1258
Fursikov, A. V. See Višik, M. I.
Gabov, S. A. *On Whitham's equation* 1225
Gabov, S. A. and Vabiščevič, P. N. *The angular potential for a divergence elliptic operator* 1415
Galperin, V. E. *Estimates of the deviation of quasi-isometric mappings of Riemannian homogeneous spaces from isometric mappings in the class* W_p^1 610
Ganzburg, M. I. *A multidimensional limit theorem in the theory of best polynomial approximation* 1027
Gavriljuk, V. T. and Stečkin, S. B. *Approximation of continuous periodic functions by Fourier sums* 882
Gavrilov, V. I. *Normal functions and almost periodic functions* 669
Gavrilov, V. I. and Levšina, G. D. *Linear functionals on Lipschitz spaces of holomorphic functions in the unit disc* 259
Genčev, T. G. *Inequalities for asymmetric entire functions of exponential type* 981
Gol′dman, M. A. and Kračkovskiĭ, S. N. *Some remarks on perturbations of closed linear operators with closed range* 1036
Gol′dšteĭn, V. M. and Vodop′janov, S. K. *Metric completion of a domain by using a conformal capacity invariant under quasi-conformal mappings* 158
Golikov, A. I. and Evtušenko, Ju. G. *On a class of methods for solving nonlinear programming problems* 352
Gorbacevic, V. V. *On topological properties of compact homogeneous spaces* 455
Gordin, M. I. and Lifšič, B. A. *The central limit theorem for stationary Markov processes* 392
Gorelik, E. M. See Vaĭnšteĭn, A. G.
Gorgadze, Z. G., Tarieladze, V. I. and Čobanjan, S. A. *Gaussian covariances in Banach sublattices of the space* $L_0(T, \Sigma, \nu)$ 885
Govorov, N. V. and Gruševskiĭ, S. P. *On some metric properties of boundary values of functions analytic in a half-space* 1031
Govorov, V. M. *The first boundary value problem for a parabolic equation with boundary function in* L_2 348
Gruševskiĭ, S. P. See Govorov, N. V.
Gul′ko, S. P. *On the properties of some function spaces* 1420
Gurevič, B. M. *A variational principle for one-dimensional lattice Gibbs random fields with a countable number of states* 914
Gurevič, B. M. and Suhov, Ju. M. *Time evolution of Gibbs states on one-dimensional classical statistical mechanics* 1088

Gurevič, V. L. *Convex surfaces in a pseudo-Euclidean space* 614
Gusevskiĭ, N. A. *On two classes of Kleinian groups* 919
Gusjatnikov, P. V. and Mezencev, A. V. *The problem of escape from several pursuers in the presence of integral constraints* 1295
Gutljanskiĭ, V. Ja. *On distortion theorems for univalent analytic functions with a quasi-conformal continuation* 617
Halikulov, I. B. See Sarymsakov, T. A.
Hapaev, M. M. and Anaškin, O. V. *On the investigation of stability in systems of ordinary differential equations with almost periodic coefficients* 716
Harazišvili, A. B. *Sets with the uniqueness property relative to Lebesgue measure* 777
On the homogeneity of three-dimensional polyhedra relative to the group of parallel translations and central symmetries 1588
Has′minskiĭ, R. Z. See Ibragimov, I. A.
Hazin, L. G. and Šnol′, È. È. *The simplest cases of algebraic unsolvability in problems of asymptotic stability* 773
Heĭfic, A. I. *On subharmonic functions of completely regular growth in a half-plane* 332
Hel′mut Koh [Helmut Koch] *The Galois group of a p-closed extension of a local field* 10
Himčenko, B. N. See Kamynin, L. I.
Hisamutdinov, A. I. *Majorizability of the "collision" estimate* 812
Hljupina, E. G. *On compactness properties in the class of groups of type* I 902
Hmel′nickiĭ, P. E. *On the asymptotics of the spectrum of integral operators connected with elliptic boundary value problems* 1001
Hrapčenko, V. M. *Depth and delay of a network* 1006
Hrustalev, M. M. *Necessary and sufficient optimality conditions in the form of Bellman's equation* 1262
Ibragimov, I. A. and Has′minskiĭ, R. Z. *On the capacity in communication by smooth signals* 1043
Il′in, A. M. and Nesterova, T. N. *Asymptotics of the solution of the Cauchy problem for a quasi-linear parabolic equation with a small parameter* 529
Il′in, V. A. and Ĭo, I. [Io, I.] *A uniform bound on the eigenfunctions and an upper bound on the number of eigenvalues of the Sturm-Liouville operator* 1474
An estimate of the difference of the partial sums of expansions corresponding to two arbitrary nonnegative selfadjoint extensions of two operators of Sturm-Liouville type for an absolutely continuous function 1553
Imomnazarov, B. (see also Lavrent′ev, M. M.)
Iterative methods for solving conditionally well-posed problems 508
On Wolterra operator equations 1230
Ĭo, I. [Io, I.] See Il′in, V. A.
Ionin, V. K. *Axioms for space-time* 626
Iosif′jan, G. A. (see also Oleĭnik, O. A.)
An analog of Saint-Venant's principle and the uniqueness of the solutions of the first boundary value problem for Stokes' system in domains with noncompact boundaries 1048
Isakov, V. M. *Uniqueness theorems for the inverse problem of potential theory* 630
On the existence of solutions of inverse problems of potential theory 673

Ivanov, A. V. *On hereditary separability and dimension of products of compact Hausdorff spaces* 460
On bicompacta all finite powers of which are hereditarily separable 1470
Ivanov, O. V., Pomel'nikov, Ju. V. and Suvorov, G. D. *Conformally invariant compactifications of a simply connected domain* 741
Ivanov, V. A. *On Dirichlet approximation of real numbers* 57
Ivriĭ, V. Ja. *The propagation of singularities of a solution of the wave equation near the boundary* 400
Propagation of singularities of a solution of the wave equation in a domain having angular points 894
Nonclassical propagation of singularities of a solution of the wave equation near the boundary 947
Jafaev, D. R. *On the violation of unitarity in time-dependent potential scattering* 1517
Jakobson, M. V. *Topological and metric properties of one-dimensional endomorphisms* 1452
Jakubov, È. H. *On solutions of Beltrami's equation with degeneration* 1515
Jakubovič, V. A. *Frequency criteria for invariance up to ϵ of control systems with one nonlinear block* 600
Jakunin, S. A. See Volkov, B. I.
Jančevskiĭ, V. I. See Platonov, V. P.
Janenko, N. N., Šokin, Ju. I. and Urusov, A. I. *On difference schemes in an arbitrary curvilinear coordinate system* 1167
Janušauskas, A. *On a multidimensional analogue of the system of A. V. Bicadze* 126
Summability of multiple power series 1350
On a three-dimensional analog of Beltrami's system 1399
Jarmuhamedov, Š. *The Martinelli-Bochner integral formula and the Phragmén-Lindelöf principle* 1592
Judin, D. B. See Nemirovskiĭ, A. S.
Jur'ev, S. P. See Babenko, K. I.
Kac, I. S. *Some general theorems on the density of the spectrum of the string* 90
Kamynin, L. I. and Himčenko, B. N. *Investigations on the maximum principle* 677
Kanatnikov, A. N. *A converse to Meier's theorem on meromorphic functions* 162
Kanoveĭ, V. G. *The significance of the parameters and of the complexity of the basic formula in the comprehension axiom schema for second order arithmetic* 1556
Kanovič, M. I. *An estimate of the complexity of arithmetic incompleteness* 206
Kaplan, A. A. *On a convex programming method with internal regularization* 795
Kaplinskaja, I. M. See Vinberg, È. B.
Karacuba, A. A. (see also Arhipov, G. I)
The distribution of values of the Legendre symbols of polynomials with prime numbers 61
Karahanjan, V. N. See Aslanjan, L. A.
Karasev, M. V. *The asymptotic spectrum and oscillation front for operators with nonlinear commutation relations* 1300
Karatoprakliev, G. D. *On the statement and solvability of boundary value problems for equations of mixed type in multidimensional domains* 304
Karlovič, Ju. I. and Kravčenko, V. G. *On an algebra of singular integral operators with non-Carleman shift* 267
Kiprijanova, N. I. *Asymptotics of the spectral function of singular differential operators* 357

Kireĭtov, V. R. *On some geometric questions of the illumination of surfaces* 575
Kisilevskiĭ, G.È. *On entire operator-valued functions of exponential type* 1560
Klebanov, B. S. *On closed images of products of metric spaces* 745
Kobel′kov, G. M. *On methods of solving the Navier-Stokes equations* 1425
Kokilašvili, V. M. *Maximal inequalities and multipliers in weighted Lizorkin-Triebel spaces* 272
Kombarov, A. P. *On tightness and normality of Σ-products* 403
Konjagin, S. V. *Approximation properties of arbitrary sets in Banach spaces* 309
Bounds on the derivatives of polynomials 1477
Korneĭčuk, N. P. *Sharp inequalities for best approximation by splines* 1092
Koršunov, V. A. See Tanana, V. P.
Korobicyn, V. A. and Sidonskiĭ, O. B. *A difference operator on a group over a matrix ring* 1429
Kostjučenko, A. G. See Boĭmatov, K. H.
Kostrikin, I. A. *Irreducible graded representations of Lie algebras of Cartan type* 1369
Kovačeva, R. K. *On rational approximants of meromorphic functions* 898
Kozlov, S. M. *Averaging random structures* 950
Kračilov, K. K. See Andrunakievič, V. A.
Kračkovskiĭ, A. P. See Emeličev, V. A.
Kračkovskiĭ, S. N. See Gol′dman, M. A.
Krasnosel′skiĭ, A. M. *A priori estimates of the norms of solutions of scalar inequalities* .. 1481
Krasnosel′skiĭ, M. A. (see also Bobylev, N. A.)
Krasnosel′skiĭ, M. A. and Pokrovskiĭ, A. V. *Natural solutions of stochastic differential equations* 578
Krasnosel′skiĭ, M. A., Bobylev, N. A. and Muhamadiev, È. M. *On a scheme for studying degenerate extremals of functions in the classical calculus of variations* 634
Krasovskiĭ, N. N. *On the synthesis of a control in a differential game* 465
Kravčenko, V. G. See Karlovič, Ju. I.
Kravcov, M. K. See Emeličev, V. A.
Kreĭn, M. G. and Ovčarenko, I. E. *Inverse problems for Q-functions and resolvent matrices of positive Hermitian operators* 1131
Kričevskiĭ, R. E. *Digital enumeration of binary dictionaries* 469
Krjažimskiĭ, A. V. *On the theory of positional differential games of convergence-evasion* 408
On stochastic approximation in differential games 955
Krol′, M. D. *Distinct variants of Kripke's scheme in intuitionistic analysis* 474
Krugljakov, L. Z. *On the varieties generated by the family of multidimensional planes in projective space* 1275
Kučment, P. A. See Zelenko, L. B.
Kudlaev, È. M. *Asymptotic normality of statistics of some classes of goodness-of-fit and homogeneity tests* 639
Kudrjavcev, L. D. *On the density of compactly supported functions in weighted spaces* 277
Kufarev, B. P. and Sokolov, B. V. *On boundary correspondence under mappings of domains in R^n* 1372
Kupcov, L. P. *The mean property and the maximum principle for parabolic equations of second order* 1140

Kurdjumov, G. L. *An algorithm-theoretic method of studying homogeneous random media* ... 166
An example of a nonergodic one-dimensional homogeneous random medium with positive transition probabilities ... 211
Kuržanskiĭ, A. B. *On the information sets of a controlled system* ... 533
Kusraev, A. G. *On necessary conditions for an extremum of nonsmooth vector-valued mappings* ... 1057
Kutateladze, S. S. *Extreme points of subdifferentials* ... 1235
Kuzičev, A. S. *A theorem on the consistency of formal arithmetic* ... 30
The theorem on the midsequent in the $\mathscr{A}$-system of λ-conversion ... 1305
On the consistency of formal arithmetic ... 1486
Kuznecov, Ju. A. and Sabaev, E. F. *Computation of Ljapunov values for differential equations in Banach space in some critical cases* ... 682
Kuznecov, N. N. and Vološin, S. A. *On the stability of a class of implicit finite-difference schemes* ... 1135
Kuznecov, N. V. *The distribution of norms of primitive hyperbolic classes of the modular group and asymptotic formulas for the eigenvalues of the Laplace-Beltrami operator on a fundamental region of the modular group* ... 1053
Kuznecov, P. I. See Alešin, B. V.
Lapenko, Ju. P. *On an estimate of the sum of deficiencies of entire functions of completely regular growth* ... 416
Lavrent′ev, M. M. and Imomnazarov, B. *Strongly positive operators* ... 14
Lavrent′ev, M. M. and Nimatov, H. *On a class of problems of integral geometry* ... 413
Le Hyu Zien and Ševčenko, V. I. *Homotopy classification of Petrovskiĭ elliptic systems of equations in the plane* ... 18
Leonov, A. S. *On the choice of a regularization parameter by means of the quasi-optimality and ratio criteria* ... 537
Letičevskiĭ, A. A. *On maximal desequencing of cyclic operators* ... 1191
Lëvšina, G. D. See Gavrilov, V. I.
Lifanov, I. K. *On singular integral equations with one-dimensional and multiple integrals of Cauchy type* ... 313
The Poincaré-Bertrand formula and singular integral equations with multiple Cauchy type integrals ... 1309
Lifšic, B. A. See Gordin, M. I.
Liskovec, O. A. *The smoothing functional principle for regularizing equations with a closed operator* ... 923
Lizorkin, P. I. *On the closure of the set of compactly supported functions in the weighted space $W^{\lambda}_{p,\varphi}$* ... 420
Ljaško, I. I., Didenko, V. P. and Citrickiĭ, O. E. *Filtering with colored noise in the observations* ... 172
Ljubarskiĭ, G. Ja. *On the theory of the WKB method. The case of a finite number of neighboring turning points* ... 986
Loginov, A. I. and Šul′man, V. S. *Irreducible J-symmetric algebras of operators in spaces with an indefinite metric* ... 541
Lopes, G. [Guillermo Lopes L.] *On the convergence of multipoint Padé approximants for functions of Stieltjes type* ... 425
Luk′janov, V. I. and Šil′nikov, L. P. *On some bifurcations of dynamical systems with homoclinic structures* ... 1314

L'vovskiĭ, M. N. *On the theory of harmonic mappings with bounded dilatation* 960
Lyčagin, V. V. *Nonlinear differential equations and contact geometry* 34
Magnickiĭ, N. A. *Multiparametric families of solutions of Volterra integral equations* 583
Mahmudov, A. P. *On a generalized quasi-linear eigenvalue problem* 1322
Maĭorov, V. E. *On linear diameters of Sobolev classes* 1491
Makanin, G. S. *Recognizing the rank of coefficientless equations in a free semigroup* 1434
Malozemov, V. N. and Pevnyĭ, A. B. *Approximation by splines of arbitrary defect* ... 1376
Mamedov, Ja. D. See Dosiev, A. A.
Marčuk, An. G. See Šokin, Ju. I.
Margulis, G. A. *Factor groups of discrete subgroups* 1145
Martynenko, M. D. and Boĭko, L. F. *On the solvability of problems without initial conditions for Petrovskiĭ parabolic systems* 1319
Martynjuk, A. A. *On a theorem of the type of Bogoljubov's first averaging theorem* 834
Maslennikov, M. V. *The Lebesgue decomposition for a family of additive functions* 95
Mednyh, A. D. *Determination of the number of nonequivalent coverings over a compact Riemann surface* 318
Meĭrmanov, A. M. See Antoncev, S. N.
Meleško, V. I. (see also Žukovskiĭ, E. L.)
On the rate of convergence of perturbed iterative methods for determining L-generalized solutions of nonlinear operator equations 1380
Menihes, L. D. *On the regularizability of mappings inverse to integral operators* 838
Menihes, L. D. and Pličko, A. N. *Conditions for linear and finite-dimensional regularizability of linear inverse problems* 963
Merzljakov, Ju. I. *Matrix representations of free groups* 64
Mezencev, A. V. See Gusjatnikov, P. V.
Mihaĭlov, G. A. *Numerical construction of a random field with a given spectral density* 99
Mihaĭlov, L. G. *On the compatibility of some overdetermined systems of partial differential equations with two unknown functions* 215
Mikljukov, V. M. *On the conformal type of surfaces, Liouville's theorem and Bernstein's theorem* 1150
Minasjan, V. B. *Some results concerning local equilibrium Gibbs distributions* 1238
Mirzojan, M. M. *On the cluster sets of mappings of topological spaces* 1326
Miščenko, A. S. *The theory of elliptic operators over C*-algebras* 512
Moiseev, E. I. *Some uniqueness theorems for an equation of mixed type* 69
On uniqueness theorems for an equation of mixed type 1061
Monahov, V. N. See Antoncev, S. N.
Muhamadiev, È. M. See Krasnosel'skiĭ, M. M.
Muhometov, R. G. and Romanov, V. G. *On the problem of determining and isotropic Riemannian metric in n-dimensional space* 1330
Mustafaev, L. G. and Feĭzullaev, R. B. *On a semiheap of locally topological mappings* 800
Naboko, S. N. *On the separation of spectral subspaces of a nonselfadjoint operator* 478
